Lip Blush....\$350

Lip Blushing is a type of semi-permanent cosmetic tattooing procedure, which is achieved by depositing pigments in your lips, using small needles. While sometimes called lip tattooing, this is more of a cosmetic enhancement, rather than the traditional tattoo art. Lip blushing focuses on altering color and shape to create younger-looking lips.

Microblading.....\$450 (Included touch-up session after 4 weeks)

Microblading is a form of permanent makeup for your eyebrows. A handheld instrument is used to create natural hair line scratches on the surface of the eyebrow's skin. A pigment that matches with your natural brow color.

Our clients love this due to the more permeate natural looking results, enhancing the beauty of the brows, and saying goodbye to spending money and time on using brow pencil every time that's easily faded away.
